1. The Academic Affairs Committee recommends to the Faculty Senate that the following options be considered for establishing the academic calendar:

   **Spring vacation on academic calendar**

   a. Spring vacation shall not be less than three weeks before the end of classes.

   b. If Easter is within three weeks of the end of classes, there be no Spring vacation.

   c. The between-semester period be variable in length so that a minimum of three weeks of classes will be scheduled after Spring vacation.

   d. The Spring vacation be scheduled as the week following the eighth week of classes regardless of the date of Easter.

2. **Course and faculty evaluation.**

   "The Academic Affairs Committee recommends to the Faculty Senate that the University of Wisconsin-Milwaukee Administration be requested to contract with the Educational Testing Service for administration of a program of course and faculty evaluation (Student Instruction Report) for the academic year 1973-74. Funds for improvement of undergraduate instruction are an appropriate source of money for the purpose. Further, the Academic Affairs Committee recommends that initiation of the longer term evaluation program previously approved by the Senate (May, 1972) proceed expeditiously."
