Through April 17, 1973 the Codification Committee held 20 meetings, including four special joint meetings with the University Committee-Milwaukee and three open hearings on revisions of the UWM Laws and Regulations.

The following business was handled by the committee during this period:

1. School of Nursing Code. The committee reviewed for editorial form a proposed set of rules and regulations for the governance of the School of Nursing.

2. UWM Laws and Regulations. As a result of campus autonomy in the University of Wisconsin System, the committee renumbered and reorganized, without making substantive changes, Chapters 1-10 and 31-34 of the Laws and Regulations of the University of Wisconsin, 1969.

3. Senate Affairs Committee. The committee met with the chairman of the former committee and discussed the organization of the Senate. No formal action will be taken until the UWM Laws and Regulations are in effect.

4. Editorial review. The committee reviewed the following UWM faculty documents for consistency with existing laws and regulations:

   a) UWM Fac. Doc. No. 752 - Administrative Staff to Serve on Faculty Committees.
   b) UWM Fac. Doc. No. 754 - Athletic Board Membership.
   c) UWM Fac. Doc. No. 757 - School of Education Request to Extend voting Rights.

The committee is currently involved in the following work:

5. Proposal to revise 32.05 (2). Professor Davy Carozza has suggested revisions in the Graduate Faculty Council.

6. School of Nursing. The School of Nursing has submitted for editorial review a request to extend voting rights in that School.
