UWM LAWS AND REGULATIONS

As a result of the proposed merger legislation, the Codification Committee undertook a systematic renumbering of appropriate sections of the Laws and Regulations of the University of Wisconsin during the 1972-73 academic year. The resulting UWM Laws and Regulations were distributed to the UWM faculty in May, 1973 by joint agreement of the University Committee and the Codification Committee. Subsequent corrections to oversights and clerical errors have been distributed.

The various sections of the Laws and Regulations of the University of Wisconsin, previously approved by faculty action, have not been approved as a unified code for UWM. UWM Faculty Document 817 therefore is a consolidated code for the governance of the Milwaukee campus of the University of Wisconsin System.

Motion: that the UWM Faculty Senate approves the UWM Laws and Regulations as embodied in UWM Faculty Document 817 and directs the executive committee of the UWM Faculty Senate to forward the document via the Secretary of the Faculty to the Chancellor for administrative action in accordance with Regent Resolution 107 (March 10, 1972).
