Recommendation of the Codification Committee to amend Section 6.05 (2) of Chapter 6 and Section 6.33 of Chapter 6, of the UWM Laws and Regulations.

6.05 Standing Committee Membership - Terms

(1)

(2) Appointments: Following the election the Chancellor appoints faculty to appointed positions on faculty standing committees. Student members are appointed annually by the Chancellor upon recommendation of the President of the University Student Government; if the recommendation is not made by September 1, the Assistant Chancellor for Student Services makes the appointment. All appointments by the Chancellor are taken from lists of recommendations which shall include at least two names for each vacant position.

6.33 Nominations Committee

(1)

(2)

(3) Procedures

(a) The committee circulates a questionnaire to the faculty immediately following the February Faculty Senate meeting, which questionnaire shows the names of all faculty committees and all other elected and appointed positions, and requests the faculty members to indicate first, second and third choices of such positions in which they are willing to serve if elected or appointed. The committee is authorized to solicit biographical data according to a form prescribed by the committee.

(b)

(c) Immediately following the meeting, the Secretary of the Faculty, prepares a secret ballot to be distributed to all members of the faculty. Accompanying the ballot will be a brief biographical statement of the candidates.

Rationale:

6.05 (2) The amendment assures that there will be a minimum of two names submitted for appointed positions for both faculty and student committee appointments.

6.33 (3) (a) and (c) The original recommendation for biographical data on candidates was appended to Document 818 (Revised). In order to assign responsibility for the solicitation of such data the Codification Committee wrote the charge into the functions of the Nominations Committee.
