ANNUAL REPORT OF THE ARCHIVES COMMITTEE

Prepared by the Curator of Archives and approved at the Committee's meeting on April 25, 1974.

Professor Ullman was elected chairman for 1973-74.

Mr. Roselle reported on plans for automated stacks in the archives storeroom which will triple the capacity for that area. Two bays will be added to the Special Collections area, one to house the Fromkin collection and the other as an expansion space and a reception area. The new installation should be completed in June.

Mr. Woods reported on the revision of the UWM buildings brochure which was first issued in 1968. The new edition will be printed and pictures of some buildings will be added. The first typing is now being revised and it should be ready for the printers within a month.

Late in January, Mr. Roselle sent a letter to all faculty members requesting that they send copies of all of their publications to the archives. Besides becoming a permanent part of the archives, these will be used for a display in the library in the fall. An annual display of future publications will be held each year. Mr. Woods reported that so far there have been 115 responses, and that a reminder letter will be sent to those who have not responded. The chairman of the archives committee will also send a letter to Department Chairmen.
