1974-75 ANNUAL REPORT OF THE CODIFICATION COMMITTEE

The Codification Committee held 13 meetings through March 24, 1975. The work of the Committee was greatly assisted by the participation of the observers and consultants assigned to the committee.

The principal task undertaken by the Committee was the revision of the UWM Laws and Regulations. Revisions in Chapters 2, 3, and 4 (Schools and Colleges, Faculty Divisions, and Departments, respectively) were presented to the Faculty Senate and approved. Chapter 5 (Faculty Personnel Rules) was completed for submission to the Senate, and Chapter 1 (UWM Faculty and Faculty Senate) was completed for action at a special meeting of the faculty. Chapter 6 (Faculty Committees) is currently under study, to incorporate the new procedures recommended by the Senate for the selection of student members and other revisions in committee structure resulting from Senate action.

In other business, the Committee reviewed 6.13 (Composition of the University Committee), subsequently passed by the faculty, and advised the University Committee on interim procedures for determining divisional membership for part-time faculty (to be established in Chapter 5).
