

Mathematics Benchmark Constructed Response Grade Level Feedback

This feedback form is used as grade level teams of teachers review student work samples. This report should be shared with the school learning team as decisions are made for the Mathematics Section of the School Educational Plan.

Grade: Algebra II **Item Description:** Pizza Deals

Part 1: Sample Scores from Student Work Papers

After scoring papers compile the results and provide scores in the boxes. By providing scores from student samples; student strengths and challenges can be addressed by grade level teachers and school learning teams.

Student	Content Point	Process Points	Total Points
A	0	0	0
B	0	2	2
C	0	1	1
D	0	0	0
E	1	2	3
F	0	1	1

Part 2: Feedback on grade Level Papers:

This section is written after all grade level papers have been scored. Highlight the strengths of the student work samples and offer suggestions to guide instruction.

Most students have a clear understanding of the best dates to buy a pizza and reading the domain of the functions. Students are struggling with calculating and interpreting the meaning of the function in terms of the context of the problem.

Students will need more exposure to function notation in terms of a context of an application and explaining their reasoning.
