

Grade _ Fall MAP Constructed Response CCSSM alignment

Standards for Mathematical Practice

1. Make sense of problems and persevere in solving them.
2. Reason abstractly and quantitatively.
3. Construct viable arguments and critique the reasoning of others.
4. Model with mathematics.
5. Use appropriate tools strategically.
6. Attend to precision.
7. Look for and make use of structure.
8. Look for and express regularity in repeated reasoning

Domain: Number and Operations-Fractions

Cluster: Apply and extend previous understandings of multiplication and division to multiply and divide fractions

Standards:

4.NF.4a Interpret the product $(a/b) \times q$ as a parts of a partition of q into b equal parts; equivalently, as the result of a sequence of operations $a \times q \div b$. *For example, use a visual fraction model to show $(2/3) \times 4 = 8/3$, and create a story context for this equation. Do the same with $(2/3) \times (4/5) = 8/15$. (In general, $(a/b) \times (c/d) = ac/bd$.)*

4.NF.6 Solve and real world problems involving multiplication of fractions and mixed numbers, e.g. using visual fraction models or equations to represent the problem.
