

Shaquisha babysits for her auntie's children. She made this table. If she works nine hours, how much money will she earn?

Hours Worked	Money Earned
2	\$8
4	\$16
7	\$28
9	?

Answer 31

Using mathematical vocabulary, explain how you figured out how much she would earn working nine hours.

$$6 + 12 + 18 + 24 = 31$$

**B**

Shaquisha babysits for her auntie's children. She made this table. If she works nine hours, how much money will she earn?

Hours Worked	Money Earned
2	\$8
4	\$16
7	\$28
9	?

Answer \$35

Using mathematical vocabulary, explain how you figured out how much she would earn working nine hours.

$$\begin{aligned} 2 \times 4 &= 8 \\ 4 \times 4 &= 16 \\ 7 \times 4 &= 28 \\ 9 \times 4 &= 35 \end{aligned}$$

Shaquisha babysits for her auntie's children. She made this table. If she works nine hours, how much money will she earn?

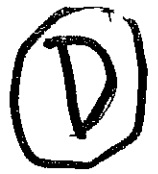

Hours Worked	Money Earned
2	\$8
4	\$16
7	\$28
9	?

Answer 36\$

Using mathematical vocabulary, explain how you figured out how much she would earn working nine hours.

all I did was 8, 16, and 28, and I counted 8 more and that's how I got 36\$

Shaquisha babysits for her auntie's children. She made this table. If she works nine hours, how much money will she earn?

Hours Worked	Money Earned
2	\$8
4	\$16
7	\$28
9	?

Answer 36

Using mathematical vocabulary, explain how you figured out how much she would earn working nine hours.

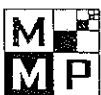

The money she gets is multiplied by the she worked time.

$$2 \times 4 = 8$$

$$4 \times 4 = 16$$

$$7 \times 4 = 28$$

$$9 \times 4 = 36$$

Shaquisha babysits for her auntie's children. She made this table. If she works nine hours, how much money will she earn?

Hours Worked	Money Earned
2	\$8
4	\$16
7	\$28
9	?

Answer 36

Using mathematical vocabulary, explain how you figured out how much she would earn working nine hours.

$$I + 8 + 28 = 36$$

Shaquisha babysits for her auntie's children. She made this table. If she works nine hours, how much money will she earn?

Hours Worked	Money Earned
2	\$8
4	\$16
7	\$28
9	?

Answer 40

Using mathematical vocabulary, explain how you figured out how much she would earn working nine hours.

Because 2 Hours is \$8.00 just add \$8 more gives me \$16.00 and from \$8 to \$28 is \$12 so that means I just have to add \$12 more to \$28 and it gives me \$40.
