3. A list of five questions (see attached) were presented to the Committee as possible prompters for obtaining information on academic planning in each school and college to inform the master planning process. Discussion ensued on the process and the type of information needed to provide useful input on where the academic programs will be in 5 to 10 years.

   The meeting ended with a brief discussion on how best to obtain the data needed to answer the questions. The chairs of the three subcommittees will meet with the planning support group on October 29 to compare notes from the three committees and to discuss strategies to obtain the necessary information on academic programs.
