Account Activation

Note:

In this tutorial, you will learn how to:
1) Activate your ePanther Account
2) Set your Security Questions
3) Create an ePanther Password

Slide 1
Note:
Use the toolbar at the bottom of the screen to Rewind, go Back, Play, Pause, go Forward, Exit, or get Info.

Slide 4
Note:
Your ePanther Id and ePanther Password will be your keys to accessing many campus computing services.
In your web browser Address field type:

www.epantherid.uwm.edu
Slide 5
Note:
The Account Activation page will display.

Slide 6
Note:
Type your NINE digit:

Social Security Number
OR
Campus ID

Slide 7
Note:

Slide 8
Note:
Select birth month from drop down.
Slide 9
Note: Select birth date from drop down.

Slide 10
Note: Select birth year from drop down.

Slide 11
Note: Select the Continue button.

Slide 12
Note: If successful, the Computing Policy and Guidelines page will display.
Slide 13
Note:
If unsuccessful, an error message will display.

Slide 14
Note:
The Computing Policy and Guidelines document displays. Important to read this information.

Slide 15
Note:

Slide 16
Note:
Select the I Accept button to continue.

WARNING! If I Don't Accept button is selected, you will be forced to start over.

If successful, the Epanther ID User Security Guidelines page displays.
Note:
Again, it is important to read this information.
Slide 25
Note:
Contact the I&MT Help Desk with questions or problems at 414-229-4040 or help@uwm.edu.

Slide 26
Note:
Select the I Understand button to continue.

Slide 27
Note:
Select 3 different security questions.
Type 3 different answers.
Select the Save my answers button to continue.

Slide 28
Note:
Slide 29
Note:
Same list of questions for each section.
Warning! Cannot select the same question more than once.
Answers are not case Sensitive.
Spaces count as a character.

Slide 30
Note:
To clear the questions/answers, select Clear this form button.
If you forget your password and remember your security answers, you can easily reset your password on-line.
Print this page to remember your security questions and answers.

Slide 31
Note:
Important to verify your:
  * Security questions
  * Answers to questions
  * Name
  * ePanther ID

Slide 32
Note:
You are now ready to create an ePanther Password.
The easiest way to set up your password is to select Suggest Password button.
Your ePanther Password will be used to sign in to:

* PantherCal
* PantherFile
* PantherMail
* PAWS
* Desire2Learn (D2L)

Warning! Make sure to read password requirements.

Password must have:

* Upper & Lower Case Characters
* Exactly 8 Characters
* Letters & numbers or symbols
Note:
Password cannot have:

* Spaces
* Backslashes
* Sequences

Note:
Create & type your ePanther Password.
Tab & type your ePanther Password a second time.
Select the Activate Account button.

Note:
If successful, the following message will display.

Note:
If unsuccessful, the system will start over from the first step.
Slide 41
Note:
Select Suggest Password button to have the system recommend a password.
Note: This is the easiest way to create a password.

Slide 42
Note:
Select Clear Fields button to start data entry over.

Slide 43
Note:
On success, it is important to read about other campus services available.

Slide 44
Note:
Note:
Warning! It is important that you protect your privacy.
Make sure to close:

* Web browser windows
* Web-enabled applications

Note:
In this tutorial, you have learned how to:

1) Activate your ePanther Account
2) Set your Security Questions
3) Create an ePanther Password

Note:
Tutorial is now complete.
Select the X to close this window.
