Water professional managers to benefit from new partnership

MILWAUKEE—The UWM School of Continuing Education (SCE) and NEW Works™ are partnering, further defining Milwaukee as a world water hub. "NEW Works™ collaboration gives us the ability to introduce our learners to the latest in sensor and process controls technology used in the management of modern small or large water systems," said Sammis White, Interim dean of SCE and a professor for the UWM School of Architecture and Urban Planning.

NEW Works™ offers hands-on training for all water management professionals using state-of-the-art equipment that simulates the complete water cycle, from source to wastewater treatment, and all steps in-between. “Our curriculum was designed to quickly equip water management professionals with the skills to function at an advanced level in the water industry,” said Shajan John, president of Mahattil International and founder of NEW Works™.

This fall, the partnership is offering two new courses to be held at the Global Water Center. “Monitoring, Controlling and Optimizing Operations in Water and Wastewater Treatment Plants,” meets Mon.-Wed., Sept. 29-Oct. 1. “Energy Optimization in Water and Wastewater Treatment Plants,” meets Wed.-Fri., Oct. 1-3. With 1pm start and noon finish time it is possible to take both classes within the same week. Visit sce-watertechnology.uwm.edu for details and to register. Both courses may be applied toward UWM’s Water Technology Certificate.

About NEW Works: NEW Works is an entity of Mahattil International, a global consultancy dedicated to furthering modern workforce development and deployment of international business growth practices. NEW Works mission is to train professionals, accelerate technology transfer, and transform communities using appropriate technology transfer, and transform communities using appropriate technologies for water management. Both NEW Works and Mahattil International are located in the Global Water Center in Milwaukee. www.mahattil.com/water.html

About the School of Continuing Education: As one of 14 schools and colleges that comprise the University of Wisconsin-Milwaukee, SCE offers participants an assortment of over 1,500 programs and 600 practitioner instructors. With nearly 20,000 participants each year, SCE is the largest provider of noncredit continuing education in southeastern Wisconsin. Its mission is to generate knowledge and learning opportunities for those interested in developing professional skills in business, technology and human services, enriching their lives with classes in arts and humanities or for those who are simply looking for a new intellectual challenge.
