Email: TBD

Prerequisites
Not open for cr to students who have cr in Chem 102. Prereq: a math placement score of 30 or a satisfactory grade in any appropriate math course equal to or greater than UWM Math 105(P) or 108(P).

Dropping the Course, Changing Sections, Incompletes
All drops, adds, and section changes of Chemistry 100 should first be attempted using PAWS. Students who are unable to add the course due to a closed section or a course conflict should see the Chemistry Department personal or contact the instructor for the course.

Any student seeking permission for a second repeat will be permitted to add starting in the first week of classes. Students seeking permission for a second repeat are encouraged to contact the Chemistry Department.

Exam Dates
The four evening hourly exams are all on Thursday evenings starting at 5:30pm (as indicated in the schedule of classes and in PAWS). The dates are as follows: 2/15/2018, 3/15/2018, 4/19/2018, and 5/10/2018. The final exam date (as scheduled by the University) is Friday May 18th 2018 from 12:30-2:30pm.

Required Materials – Subject to change
Course Text:  *General Chemistry: The Essential Concepts* (7th Edition) by Chang (electronic copies are available) – expected cost range $50-$200 (depending on source)

Classroom Response System: The attendance system being used is Top Hat. You will be using your own electronic device to enter answers. Expected cost for registration into the course through TopHat is approximately $18

Safety goggles – expected cost approximately $10

Bound laboratory notebook with duplication – expected cost approximately $15

**Safety goggles are absolutely mandatory. They must seal around the eyes and have shielded vents.**

Calculator: Non-graphing or non-programmable *scientific calculator* with logarithms, exponential functions, etc. – expected cost approximately $20

This is not a full or complete syllabus. The final course syllabus will be updated January 2018.
