Motion Regarding Requirements for Receiving University Honors

Motion

The Academic Policy Committee is recommending that the requirements for receiving University Honors be consistent across the university such that graduates with a GPA $\geq$ 3.8 receive Summa Cum Laude University Honors, graduates with a GPA $> 3.65$ receive Magna Cum Laude University Honors, and graduates with a GPA $> 3.5$ receive Cum Laude. These cut-points should be based on a minimum of 60 graded UWM credits, to be consistent with current policy.

Rationale

Last year it was brought to the attention of the APC that there was a lot of inconsistency across the schools and colleges, in terms of the requirements for receiving University Honors. It is the view of the APC that there should be consistency across the schools and colleges, in terms of the requirements for receiving University-wide Honors.
