Recommendation of the University Committee Distinguished Professors

For Development of Policies and Procedures Governing the Selection and Roles and Responsibilities of UW Milwaukee Distinguished Professors

During the past five years, members of the University Committee and other UW Milwaukee faculty committees have held lengthy and productive discussions regarding the process used to select UW Milwaukee Distinguished professors. Concerns have been voiced regarding the limited number of faculty members holding the title of UW Milwaukee Distinguished Professor; the lack of clear and known criteria and procedures for the selection of UW Milwaukee distinguished professors; lack of faculty representation from across UW Milwaukee's schools and colleges as well as academic divisions.

Numerous faculty, during a committee of the whole discussion held at the December 2006 UW Milwaukee Faculty Senate meeting, spoke of the need for general guidelines or principles that could guide the selection of UW Milwaukee distinguished professors as well as for a clearer articulation of the roles and responsibilities of those individuals holding the title. The discussions resulted in the following principles.

Principles

1. Selection process should be transparent to the university faculty.
2. Selection criteria and procedures should be clearly articulated and process should have closer involvement by executive committee of candidate.
